

Setting up Squidoo Pages for Your Affiliate Marketing

Squidoo is a free tool that you can use to promote yourself and your affiliate products. If you don't yet have a website or if you want to drive more traffic to your site, Squidoo can help you do that. Like a regular web page, Squidoo allows you publish content for others to read. Your Squidoo Lens (a page) is indexed quickly and can assist in search engine ranking. You can establish yourself as an authority on topic by creating multiple lenses and offering recommendations for related products.

Here are some ways affiliates can use Squidoo Lenses:

- Offer tips on saving money on your grocery bill
- Create product reviews
- Help solve problems like cooking for picky eaters
- Give information on nutrition, food allergies, cooking for seniors.
- Add articles and offer recommendations

Here's how to get started with Squidoo
